MAY CALL SPECIAL SESSION

Here and There

Editorial By ALEX. H. WASHBURN

THE women's organizations of Hope ought to be making arrangements now for the planting of decorative shrubbery on the east and west approaches of highway No. 67 after the first autumn rains. The Star promoted the planting of American elm trees one mile on either side of town last spring, and the spaces between the trees should be planted by the various women's organizations.

5 High Schools to Open Big Stadiums for Football Year

Hope Among the 5, Which Include Little Rock, Pine Bluff Projects

AIDED BY THE WPA

Hope's \$20,000 Stadium to Be Duplicate of One at Henderson

LITTLE ROCK.—(AP)—Arkansas high school and college football teams will go through their paces amid improved surroundings this fall.

Five high schools and Henderson State Teachers College at Arkadelphia will entertain the opposition in new concrete stadiums, while the Bears of Arkansas State Teachers College, Conway, and at least 12 other high schools will offer improved gridirons and stands.

Largest of the high school projects is the new \$150,000 Little Rock high school stadium, being constructed on the site of old Kavanaugh Field, scene of the capital city's athletic activities since the turn of the century. Here, with WPA assistance, is being constructed two giant concrete stands, each with a seating capacity of 6,000—a total of 12,000.

The stands on the west side of the field are nearing completion and will be ready for the season's opener early in September. The east stands are scheduled to be up in time to hold the thousands expected for the traditional Little Rock Pine Bluff game.

The home field of the Tigers has been resodded and drainage facilities provided. Around the gridiron will be a 440-yard track. The plant will have all the latest features including a glass enclosed press box and dressing rooms for both teams beneath the stands.

On this field will be played December 5 the centennial gridiron classic between the University of Arkansas and University of Texas.

New Henderson Field
At Arkadelphia the WPA is assisting Henderson College with construction of a field, rated among the best in the south. Except for finishing touches the two concrete stands on each side of the gridiron have been completed. The turtleback football rectangle has been carefully cut down and resodded.

Remaining to be constructed is a 220-yard straight-away and a field-house to occupy a spot at the northwest corner of the field across from the Haygood gymnasium.

The stadium will be dedicated at the annual Henderson-Magnolia A. and M. game on September 25.

Coach Ben Mayo's Fort Smith Grizzlies will play host to opposing elevens in a new \$80,000 concrete stadium. The stadium itself will cost \$45,000 and construction of numerous classrooms beneath will run the cost to the \$80,000 mark.

The Grizzly plant, adjacent to the school, will seat 6,000. The concrete stands will hold 4,500 and bleachers across the field will provide for an additional 1,500. Improvement of the

(Continued on page three)

Hempstead to Be Cleared of Bang's Disease in Cattle

U. S. Department Sending Veterinarian Staff Here August 25

ASK CO-OPERATION

50 Cattle to Be Tested Daily in This County Beginning Next Monday

Hempstead county cattle owners will have an opportunity to clear their herds of Bang's disease, commonly known as infectious abortion, without cost to them.

Clearing the county of this disease will depend upon the co-operation the farmers give to Dr. M. H. Greer of the United States Department of Agriculture when he comes here with a staff of workers next Tuesday, August 25.

Farmers are urged to have their herds tested as to list their name, address and number of cattle with the county agent's office at Hope city hall.

Dr. Greer will have five men working under him. Each man is required to test 50 cattle daily. All tests will be made free of charge to the farmer. Infected cattle will be appraised, purchased by the government and shipped to the livestock market.

The government pays \$25 per herd for infected cattle. Besides that the farmer will receive the market value for his infected cattle.

All cattle over six months old will be the exception of steers or eligible for tests.

Hempstead county is the first in southwest Arkansas to be selected for tests of Bang's disease, partly because the county has a stock law and the herds can be reached easily.

Turned Brown By Brown Turner

NASHVILLE, Tenn.—(Special)—That Chicago professor who has just discovered there are more women than men in this country must have tried to find a seat on a street car some time or other. He didn't say so, but if he'll delve a little deeper into the situation he'll probably find two women to one man working, and maybe find they do the work better at that. Looks like the future is bright for bachelors.

If there is a food shortage in this county as some economist has just claimed there will be, I hope the shortage is confined to cabbage. This business boom is going to be hard on the relief rolls.

16 Plead Guilty to Plot Upon Soviet

Leon Trotsky, Famed Exile, Declared to Be Head of Revolt Move

MOSCOW, Russia.—(AP)—Sixteen accused Trotsky conspirators pleaded guilty in open court Wednesday to Soviet government charges that they had plotted to seize power through an organized reign of terror in which Leon Trotsky, famed exile, and other state heads would have been killed.

All the prisoners, apparently destined for the death sentence, were former members of the Communist party. The prosecutors, at the opening of the trial, charged that the plot was directly organized by Leon Trotsky, famous Bolshevik exile, and that the plotters hoped for international complications which would pave the way for the overthrow of the government.

German secret police also were charged with direct participation in the plot.

Legion to Choose State Delegates

Selection Will Be Made Thursday Night at Hope City Hall

Hempstead county delegates to the state convention will be chosen Thursday night at a meeting of the Leslie Huddleston post of American Legion.

New officers for the local post will also be elected at the meeting scheduled to begin at 8 o'clock at Hope city hall.

Every veteran in the county is urged to be present.

Loss of Patronage to Hit Congress

Protests Expected Regarding Loss of Postmaster Appointments

By PRESTON GROVER
Associated Press Correspondent

WASHINGTON.—The part that members of the house play in selecting new postmasters within their districts has been so drastically cut, in the opinion of postal officials, that a flood of protest is expected from the coming congress.

Congressmen still may continue the present postmasters in office or call for competitive examinations for new ones.

By long practice, house members have been able to recommend as a candidate any one of the three receiving the highest marks in the examination. But under the executive order issued by President Roosevelt July 20, no choice is left. The job goes to the candidate who passes the examination best, unless it can be shown to the civil service commission that his character or residence disqualifies him.

Some Democratic congressmen have complained to postal officials that even with three candidates from whom to choose it was often hard enough to find a deserving Democrat.

One avenue out of that situation is that the postmaster general and the affected congressman can try to prove that an undesired candidate is disqualified for character or residence reasons. That appeared to offer a whole kettle of trouble.

Of course there is another way of selecting postmasters under the new executive order. The incumbent postmaster can be retained without being subject to an open examination. Or a civil service employee within the postal service can be promoted to the postmastership. Both must pass "non-competitive" examinations, but postal officials describe that as a "mere formality."

When the executive order was issued, Senator Vandenberg, Michigan Republican, declared that this busi-

(Continued on page three)

City Extends Its WPA Office Deal for Another Year

Council Authorizes Mayor to Sign Contract at \$62.50 Per Month

NEW PUMP COMING

Electric-Driven Water Pump to Be Installed at Municipal Plant

The city council in a short session Tuesday night authorized Mayor Albert Graves to sign a 12-month contract leasing the WPA office building at \$62.50 per month with an option for an additional 12 months at the same rate.

The present lease requires the city to pay \$50 per month rent on the building. The motion to pay an additional \$12.50 per month rent was adopted without much discussion.

Alderman Carter Johnson reported that the city's new electric water pump to be installed at the municipal water and light plant was in transit, and that plans are ready for its installation upon arrival.

The pump was purchased several weeks ago at a cost of \$1,125.

Alderman Johnson also reported that work was progressing on installation of the stop-and-go light at Main and Third streets.

In a letter to the council, signed by Mrs. Leon Bundy of the Hope Boys Band Auxiliary, the council was asked to waive the license fee and permit Dr. Shows to come here.

Mrs. Bundy pointed out that the band auxiliary would receive \$3 on each concession and 10 per cent of receipts taken in on all rides and shows. She said this money would be spent for band equipment.

Mrs. Bundy said that the show desired to locate on the old Garland school grounds.

After deliberation the council granted permission for the show to locate on the school grounds provided that band auxiliary members obtain written consent from all residents within one block on every side of the school ground.

G Man Ace Turns to Teaching Others

But It Will Be Teaching of Policemen, That He Turns to

BLOOMINGTON, Ind.—(AP)—One of the federal agents who helped clean up Al Capone's gang in Chicago, Lieut. Dan L. Kookan, now of the Indiana State Police, will turn his talents to the teaching of policemen when the new four-year training course of Indiana University opens in September.

As supervising lieutenant of the state police force, Lieutenant Kookan has been assigned to direct the study of scientific methods, police tactics, general police administration, and criminal investigation. He has had considerable practical experience in the work in head of the state police school, which he organized and headed and which is being abandoned in favor of the new college course.

Slight of stature and mild of manner, the antithesis of the stage and movie presentation of policemen—Lieutenant Kookan believes the non-political selection of a trained, educated police personnel is the answer to the crime problem of the United States. He believes college men of character and intelligence can be trained to become the best policemen in the world.

He was in the coast artillery from 1908-1911, then for six years was timber cruiser, guide and trapper in the Canadian northwest. He served as first lieutenant with the 369th infantry, seeing heavy service in the Vosges and Argonne sectors during the World war.

Returning from army service Lieutenant Kookan entered the service of the treasury department, later transferring to the department of justice as a special agent assigned to the Chicago division. In 1930 he resigned to become assistant director of the Secret Six, famed crime-fighting body organized by the Chicago Association of Commerce.

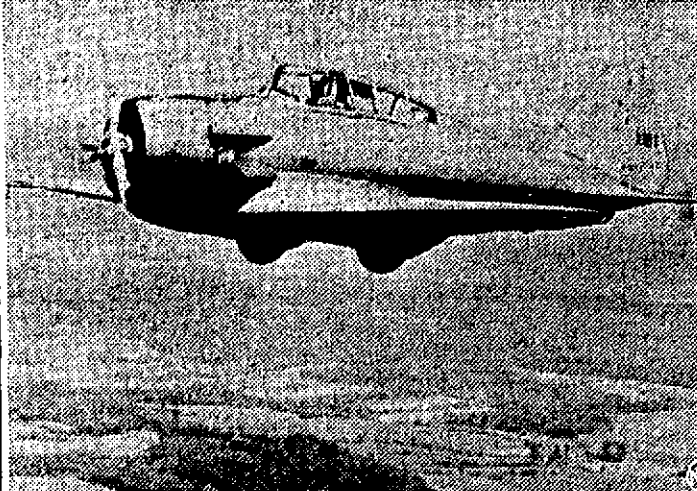

With Capone safely behind bars, Lieutenant Kookan resigned from the Secret Six to become superintendent of public welfare in Omaha. He returned to Indiana from that post in 1934 to become supervising lieutenant of the Indiana State Police.

Garland County Calls Grand Jury in Murder

HOT SPRINGS, Ark.—(AP)—Circuit Judge Earl Witt Wednesday called a special session of the Garland county grand jury to investigate the killing early this month of John McGirt, 55, night watchman, which resulted in a mob violence threat against two negroes in connection with the case.

Gives U. S. Jump in Air Warfare

Called the fastest and most powerful pursuit plane in the world, the sturdy looking monoplane seen in flight over Long Island is the first of a squadron of 77 ordered by the United States Army. It was designed by Alexander P. de Seversky.

Northeast End of County Gets Rain

But Temperature Rides Above 100 for Third Consecutive Day

Showers in northeast Hempstead county brought temporary relief Tuesday afternoon from high temperatures and drought.

No other part of the county was visited by rain, a checkup Wednesday showed.

Mercury in the federal thermometer at the Fruit and Truck Branch Experiment station topped the 100-degree mark Wednesday afternoon for the third consecutive day.

Monday's high was 102½, with a maximum of 103 Tuesday—and at 2 p. m. Wednesday the reading was 101 degrees.

By the Associated Press

Relief from the intense heat prevailing over the nation's bread-basket—the Middle West—and rain Wednesday night and Thursday, was predicted for several areas Wednesday with the continuance of 100-degree temperatures in Kansas and southern Missouri.

Government Meteorologist A. W. Cook forecast thunder-showers in northern central Illinois, Indiana and northern Missouri, probably starting late Wednesday.

Large Political Role for Women

Both Republicans and Democrats Establish Women's Division

By SIGRID ARNE
WASHINGTON.—(AP)—He-men who howled a few years ago at the feminine invasion of barber-shops will have an excellent opportunity this fall to "view with alarm" around political headquarters.

Women's clattering high heels and perfumed frills will be just as prominent in political sanctuaries as the traditional campaign cigar. Political chiefs are making such a determined bid for the women's vote that both Democrats and Republicans have set up special women's divisions. Gifted women speakers will soon be prominently displayed on political platforms.

Republican State
Young John Hamilton, Republican national chairman, says he takes women in politics as a matter of course. "I grew up thinking of women as voters," he has said.

Genial "Jim" Farley in the Democratic camp convinced the feminine rank-and-file in his party early this year of his regard when he ordered Democratic organizations from the precinct up to make sure of 50-50 representation for women on governing boards.

Women civic leaders are reciprocating by placing themselves at the beck-and-call of their parties.

The Republicans will put a troupe of stars in the field that will include Mrs. E. E. "Dolly" Gann, sister of the late Vice President Curtis; Mrs. Julia Cantacuzene-Grant, granddaughter of President Grant; Mrs. Bertha Bauer, Chicago civic leader; Margaret Culkin Banning, the Minnesota novelist; and Mrs. Edith Nourse Rogers, representative from Massachusetts.

Democratic List
On Farley's list are Mary W. "Molly" Dowson, the New York social worker who turned political organizer; Ruth Bryan Owen, minister to Denmark; Harriet Elliott, dean of women at the University of North Carolina; Nellie Tayloe Ross, director of the mint; and Mrs. Blair Banister, assistant treasurer of the United States.

None of them is on the flapper side of thirty. All have taken a baptism of fire.

Futrell Is Polling Solons on Plan to Increase Pensions

Would Distribute Full 35 Per Cent of Sales Tax Proceeds

LIMIT IS \$300,000

Previous Session Failed to Carry Out 35 Per Cent Distribution

LITTLE ROCK.—(AP)—Governor Futrell disclosed Wednesday that he was polling the members of the legislature on a possibility of a special session.

The governor said he was polling the legislators to determine whether they would clarify the sales tax to provide additional funds for old age pensions if a special session should be convened.

The session would be called only if a majority of both houses answered the call affirmatively, the governor said; and the session would be for the purpose of specifically appropriating 35 per cent of the revenues from the state sales tax to the state welfare fund.

Flat \$300,000 Appropriation
The 1935 legislature, while dividing the sales tax 65 per cent to the public schools and 35 per cent to the state welfare fund, failed to provide for regular distribution of this 35 per cent.

Instead, the legislature voted a flat distribution of \$300,000 out of the proceeds of this 35 per cent, allowing the balance of the 35 per cent to pile up as surplus for future distribution—which it is apparently the purpose of a special session now to arrange.

126 From County Visit Farm Rally

District Meeting of Mid-South Growers Is Held at Prescott

A farmers' meeting was held in the courthouse at 2:30 Monday afternoon at Prescott with an enthusiastic attendance of cotton growers present. The conference was called by A. E. Slusser, of Hope, branch manager of the Mid-South Cotton Growers association.

A total of 126 Hempstead and Nevada county farmers attended.

All members of the Cotton Cooperative were especially invited, although the conference was open to all farmers.

H. H. Huskey of Prescott Route Three, one of the leading farmers in this section, presided. H. Vandiver, field service director of the association presented a chart lecture describing the two methods of marketing cotton. He pointed out that the commercial profit method offered but little opportunity to build up a marketing system for cotton. He said that the Cooperative Association have accomplished a great deal in overthrowing the hog round system of buying, and that prior to the start of the cooperative movement, about 13 years ago, that but very little consideration was given for grades, staples or character of cotton in the prices paid to farmers. He stressed the fact that the MidSouth Cotton Growers Association was a producer owned and producer controlled organization, and that it was strong financially, with each member sharing in the assets of over a half million dollars, according to their patronage and attention they have given the organization.

Before the meeting adjourned, an open discussion was held with several grovers asking questions and making suggestions that should prove beneficial to the movement. Other speakers were L. C. Sommerville, L. W. Buchanan, and J. L. Hiler, Nevada county agent.

Spoonful of Salt Curbs Heat Danger

Keeps Up Saline Content of Blood During Heavy Perspiration

HEMET, Calif.—(AP)—With the temperature often reaching up to 120 degrees in the shade, salt water is being used to prevent heat deaths both at Boulder dam and on the Metropolitan Water District aqueduct.

More than 8,000 men are now at work on the 300 mile aqueduct which will bring water from the Parker dam on the Colorado river to cities in Southern California. About 250 miles lie in desert country, yet there have been no heat fatalities.

Workers are advised to take a teaspoonful of table salt in a glass of water each day to prevent a lowering of the saline content of the blood stream by excessive perspiration.

America to Build 9 New Warships

Bids Opened for 6 Destroyers and 3 Submarines by Navy Dept.

WASHINGTON.—(AP)—Bids for the construction of six new destroyers and three submarines to be built in private shipyards, were opened Wednesday by the Navy Department.

The opening of the bids marked the first step in launching the Navy's building program for the 1937 fiscal year.

Mirrors
I sometimes feel that mirrors
Are prone to telling lies;
A man best sees himself
When he has shut his eyes.

True mirrors I have found,
Flash suddenly to sight:
Myself looked out at me
From a thicket single one
night.

Again, while I was reading
I gave a startled look—
For there I was, reflected
In the pages of a book.

And a well-remembered mirror
To which I once was led
Was just some pregnant words
An honest child had said.

George Raft Film Here on Thursday

Dolores Costello Barry-
more, Ida Lupino Also
in the Cast

What happens when a tough gam-
bling house operator tangles with the
manners, customs and people of high
society, and takes course in etiquette
in order not win the love of an adven-
tress he believes a social star, is
made into a breezy comedy-romance
in "You're for the Asking," Thursday
and Friday at the Saenger.

The film co-stars George Raft, fam-
ed for his portrayal of hard-guy roles,
and Dolores Costello Barrymore, who
reached new heights recently in "Lit-
tle Lord Fauntleroy."

Raft meets Miss Barrymore, a gen-
uine society girl, and arranges to open
a swank gambling outfit in her fam-
ily's old mansion, which is tottering
under the weight of mortgages. Im-
mediately his trusted aides, James
Gleason, Lynne Overman and Edgar
Kennedy, begin to fear that Raft is
falling for the lovely blonde socialite.

In order to halt the threatened ro-
mance, they get Ida Lupino, a young
lady of many names, and Rogena-
Owen, seller of gadgets on a coast res-
ort boardwalk, to put on an act. Miss
Lupino poses as the daughter of a fine
old aristocratic family; Owen becomes
her courtly uncle. The girl sets out to
win Raft.

The romance develops new comedy
features when Raft goes to Miss Bar-
rymore to be instructed in society
ways, so that he can win Miss Lupino.
Richard "Skeets" Gallagher and a
host of other good players are featur-
ed.

Large Political

(Continued from page one)

of fire in some profession or as civic
leaders.

For thirty years "Dolly" Gann stood
by the side of her brother in his po-
litical work, blossoming into a na-
tional speaker who attracted thousands
to hear her in the 1932 campaign.

Mrs. Cautucuzene-Grant was in Rus-
sia when the revolution broke. She
will oppose any change of the consti-
tution before patriotic societies among
which she is well known.

Mrs. Bertha Bauer is a spirited lit-
tle Chicagoan who is running for con-
gress. She started as a girl-secretary
and is now a rich widow with a law
degree. She took out of simple desire
to be doing something.

Margaret Cullin Banning has a doz-
en novels behind her, and a political
philosophy which revolves around the
advice to join some party and reform
from within.

Representative Rogers has been re-
turning to congress since 1924. She
will tell political rallies about her
worry over higher taxes.

"Molly" Dewson is a veteran wo-
man's organizer. She was drafted for
the Alfred E. Smith campaign in 1928
by Mrs. Eleanor Roosevelt, and since
then has built a nationwide organiza-
tion of Democratic women.

Mrs. Owen to Campaign
Mrs. Owen, who was recently mar-
ried to Capt. Boerge Rohde, of Den-
mark, will spend her leave of absence
from his diplomatic post, campaign-
ing. She inherited much of the speak-
ing magic of her father, William Jen-
nings Bryan, and she adds to her
knowledge of government, experience
gained during her service in the
House.

Harriet Elliott is doubly armed for
political jousting by the 23 years she
has spent as a professor in political
science. She is devoting her summer
vacation to campaign speeches.

Mrs. Ross downed her first dose of
public speaking when she was made
Wyoming's first governor. She be-
came vice chairman of the Democratic
national committee in 1929, and in 1932
made a wide swing through the West
for Roosevelt.

Mrs. Banister is noted for the same
dry wit possessed by her famous
brother, Senator Carter Glass, of Vir-
ginia. She has been educating women
to politics and government since the
war days when she was a member of
the writing staff in the government's
information service.

A stroke of lightning develops

CLUB NOTES

Melrose

The Melrose club met August 18th
with Mrs. Alford Zimmerly with nine
members, one new member and one
visitor present. Miss Alford gave a
demonstration.

The roll was called and each answer-
ed by telling how she would like to
spend her vacation. Mrs. O. L. Roberts
read Luke 21-28 for the devotional,
with prayer by Mrs. C. P. Zimmerly.

Mrs. O. L. Roberts won first place in
the children's dress contest and Mrs.
Alford Zimmerly won first place in the
rug contest. We are proud our club
had some winners in the contest.

Our meeting closed by repeating the
club prayer.

on the first epistle of John.

Tuesday night the Rev. Mr. Couch
spoke on the question found in Jer-
emiah 8:4, "What have I done?"

Loss of Patronage

(Continued from page one)

ness of permitting the postmaster to
retain his job after a non-competitive
examination was "a neat scheme to
give life jobs to existing Farley in-
cumbents" without the hazard of a
competitive examination.

Officials See Reform

To some the proposition seems de-
batable. Postmasters are appointed
for four-year terms and many Hoover
appointees carried far over into the
Roosevelt administration. It is doubt-
ful whether Democratic congressmen
would seek to perpetuate them in of-
fice by recommending non-competitive
examinations. Roosevelt appointees, in
turn, will not come up for reappoint-
ment until the next administration.

Postal officials insist the order was
a step toward placing the whole po-
stal system under civil service. The
next step, they predict, will be an act
of congress establishing it.

That step already has been many
years in the taking.

Health Budget Revised
RIO DE JANEIRO.—(AP)—A senate
committee ruled out as unconstitu-
tional a bill providing 20 per cent of
the budget approved for the ministry
of health and education must be spent
in organizing prophylactic bureaus to
examine couples before permitting
them to marry.

5 High Schools To

(Continued from page one)

turf and other finishing touches now
are under way and the entire plant is
expected to be ready for the opening
game. Installation of lights was start-
ed during the past week-end.

Pine Bluff Stadium

Zebra field, where Allen Dunaway's
Pine Bluff charged play their home
games is completed after almost two
years of construction work. The Pine
Bluff plant provides for 7,000 spec-
tators and, like the Little Rock stadium,
is equipped with the latest features.

Rix stadium at Hot Springs has had
its seating capacity increased by some
1,000 with construction of new con-
crete bleachers on the south side of
the field. The wooden bleachers on
the north side also will be in use.

Other improvements include a re-
shaped and re-sodded playing field
and a practice gridiron at the east
end of the stadium. Several other pro-
jects for improvement of the field and
stands are pending.

At Conway improvements to the
tune of \$20,000 have been made to Es-
tes field, home of the State Teachers
Bears. They include a resodded field,
curb drainage and building of a prac-
tice field east of the regular gridiron.
Stands on the west side of the park
were doubled during the summer, giv-
ing it a seating capacity of 3,000. Ar-
rangements are being made to erect
portable bleachers on the east side
to permit use for baseball.

A \$20,000 concrete stadium, a dupli-
cate of the Henderson plant, is being
constructed at Hope. One side of the
stands is expected to be ready next
month. Work on the other side will
begin at close of the season. The sta-
dium will be 15 tiers high, surrounded
by a nine-foot tile fence.

Other high school athletic fields im-
proved during the summer include
Harmon field at Pargoud, Wynne,
Walnut Ridge, Imboden, Hoxie, Stutt-
gart, McGehee, Mansfield, Ola, De
Queen, Benton and North Little Rock.

The amount of erosion from rain-
water is measured by a new device
perfected by the U. S. Department of
Agriculture.

Here Sunday

Ladies day will be observed here
Thursday when the Williams Lumber
company baseball team meets Nash-
ville at Fair park. The game starts at
4 p. m. Ladies will be admitted free.

Richardson will pitch for Nashville.
Carroll Schooley will be on the mound
for Hope.

Manager Lloyd Coop said that the
game Thursday would probably be the
last week-day contest of the season.
Next Sunday the Barksdale Flyers
of Shreveport will come here.

Dr. E. L. DeKolyer, New York
ecologist, believes the secrets hidden
under the waters of the sea can be
exposed by dynamiting, and blow-
ing deep sea life and vegetation to the
surface.

FORD V-8 GAS ECONOMY

demonstrated in public tests

Gasoline mileage increases of 10% to 15% are now being demonstrated by Ford Dealers in public test runs. Stock cars are used—fitted with see-for-yourself glass gallon jugs.

Make one of these test runs. We invite you to see for yourself how economical a Ford V-8 really is.

Your Ford Dealer

TUDOR \$545

F. O. B. Detroit. Choice of 3 colors. Safety Glass all around at no extra cost. Wheelbase: 112". Springbase: 123". Horsepower: 85. Standard accessory group extra.

PERFORMANCE IN A CLASS BY ITSELF

Get the Facts on V-8 Economy!

FORD V-8

Only V-8 car below \$1645—85 horsepower, with V-8 smoothness and pickup.

Only Centerpoise Ride car below \$1275—springbase almost a foot longer than wheelbase with all passengers seated forward of rear axle.

Super-Safety Brakes—more braking surface for car weight than any other car below \$3195.

Exclusive Roadability—Torque-tube drive, free action on all 4 wheels (without sacrifice of the strong front axle).

Handling ease—shockless steering, easy-acting brake and clutch pedals, silent helical gears in all speeds.

NOTE: Safety Glass all around—no extra cost.

Rich, beautiful new interior appointments in all body-types. See them today!

\$25 A MONTH after down payment, buys any new Ford V-8 under U.C.C. plans of 1/2% a month on original unpaid balance.

See the FORD EXHIBIT at the TEXAS CENTENNIAL at Dallas, June 6th—November 29th

Hickory Shade

Mr. and Mrs. Fremman Crider and baby spent Friday visiting relatives near Piney Grove.

Several from this community attended church at DeAnn the past week. Misses Virginia Galloway and Mary Wanda Petree were the Sunday dinner guests of Misses Mildred and Irma Lee Robison.

Mr. and Mrs. J. E. Rogers and little son, spent Saturday night and Sunday with Mr. and Mrs. Eunie Calhoun and family.

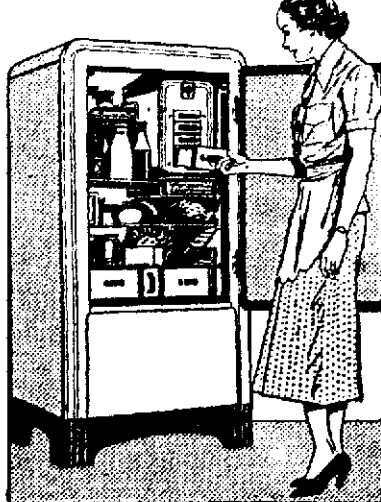

Mr. and Mrs. Chester Prince and little son Jimmy spent Sunday with Mr. and Mrs. John Allen.

You'll want
ALL
these advantages
in your new
refrigerator!

- No moving parts to wear
- Lasting efficiency
- Continued low operating cost
- Fullest food protection
- Savings that pay for it

YOU'LL
GET THEM IN
ELECTROLUX
THE SILENT
REFRIGERATOR

You have only to LISTEN to Electrolux to know that it's simpler, more efficient... for it operates without machinery, without noise.

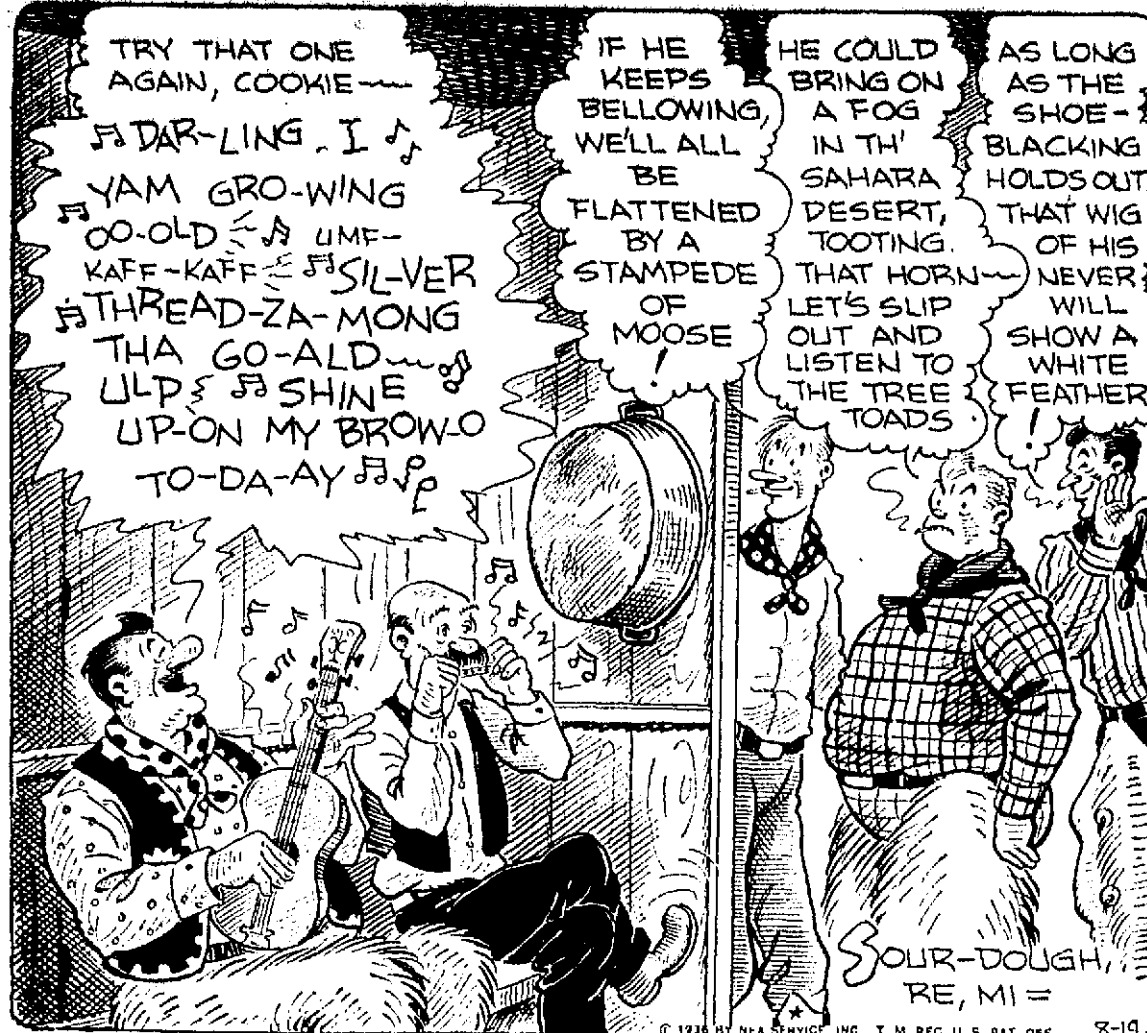

BEFORE making up your mind about any refrigerator, see Electrolux. Electrolux's silence is not only a comfort, but it is evidence of the simplest of all refrigerating methods, wherein a tiny gas burner takes the place of moving parts. Come in!
